

NATURALLY REMODEL YOUR SKIN WITH SKINPEN® PRECISION

What is SkinPen Precision?

SkinPen Precision is the leading microneedling device and it works to remodel the skin by creating temporary microscopic channels in your skin.

This simple procedure activates your body's natural skin-healing power to increase collagen and elastin so your skin returns to a healthier looking and youthful appearance.

Watch your skin look more youthful and rejuvenated with SkinPen Precision.

Inner Beauty

Collagen and elastin are the essential protein fibers in the skin that give it support and elasticity. As we age, these fibers break down and can cause wrinkles.

Regenerating the collagen and elastin in the skin can help to give you a more youthful appearance overall.

Collagen also plays a key role in scarring, such as those resulting from acne. Skin remodeling can have an important role in the improved appearance of this condition.

SIMPLY ACTIVATE YOUR OWN COLLAGEN FOR MORE **YOUTHFUL-LOOKING SKIN**

SkinPen® Precision is simple, comfortable, and effective for skin rejuvenation in as little as 30 minutes.

WHAT YOU CAN EXPECT:

Light Numbing

Topical anesthesia may be administered to assure maximum comfort during the treatment.

Simply Treat

SkinPen Precision creates millions of controlled microchannels in the skin to elicit your body's natural wound healing cascade.

This healing process works at the site of treatment to remodel the tissue resulting in new collagen and elastin, giving your skin a younger, firmer and radiant appearance.

Post Treatment

Following your treatment your skin may appear slightly pink to red, similar to a mild sunburn.

Results may appear after just one treatment, but will continue to improve three to six months following your last treatment.

Your provider may recommend a series of procedures based on your individual goals. Maintenance of your procedure may require multiple treatments.

NEW COLLAGEN... **NEW YOU**

In clinical studies, 85% of patients said they were satisfied with their SkinPen Precision treatment.*

IMPROVEMENT YOU CAN SEE
